HARMONY H.S. HAS ANNUAL BANQUET

ENTERTAINING AFFAIR GIVEN IN COMMUNITY HALL LAST NIGHT.

SENIORS GIVE PROGRAM

Eleven Eighth Grade Graduates to Enter High School Next Year—Class Pennants Presented.

The annual banquet of the Harmony high school was held last night in the community hall at Harmony. The occasion was a very enjoyable one and the program was highly entertaining.

The rooms and tables were decorated in the senior class colors of purple and white. Four years ago the classes adopted standard colors to be used by each class of that grade. These are freshman, green and white; sophomores, gold and white; juniors, black and gold, and seniors, purple and white. Each year the class pennants are presented to the on-coming classes and this ceremony took place last night.

The banquet program, under the direction of George Lewis, toastmaster, included: Class history, Wilbur Cox; class poem, Estella Lawson; class roll, Mary Marshall; toast to the faculty, Charlotte Green; response, Superintendent W. A. Power; vocal solo, "My Rosary for You," Hazel Cox, toast, "Our Class," Leta Hantze; class prophecy, Gladys Lawson; toast, "The Consolidated School," Bert Cooper, county superintendent of schools; toast, "Relation of the Church to the School," Rev. C. R. Green.

The faculty members present were: W. A. Powers, superintendent; Miss Mildred Burke, Miss Marie Burke, Miss Vida Heflin, Miss Blanche Silver, Mrs. Fred Buck, and Mrs. Floyd Van Velson.

The eighth grade graduates from the rural schools in the community to enter the high school next year are: Harold Hantze, Ross Edwards, Doyle Murray, Dorris McKee, Leatha Lawson, Stella Singery, Perry Sapp, Glenn Lawson, Ray Ditto, Bennie Joiner and Raymond Armstrong.

ILLUSTRATED LECTURE AT PICKERING CHRISTIAN CHURCH

Will be Given Saturday Night Free in the Interest of the Interchurch World Movement.

Stereopticon views of the Interchurch World Movement will be given at 8 o'clock Saturday night at the Christian church in Pickering. They will be shown by a team from the Protestant churches of Maryville illustrating what is said to be the greatest movement of the age, in which 30 Protestant denominations are participating. This team will probably consist of Rev. R. C. Holliday, pastor of the Methodist church, South and Rev. R. E. Snodgrass, pastor of the First Christian church. There will be no admission fee.

GLEE CLUB GIVES PROGRAM AT S. T. C. YESTERDAY.

The Missouri Wesleyan College glee club, who gave a concert at the First Methodist church last night, gave a program at the State Teachers College yesterday afternoon which was highly enjoyed by the students. Prof. Williams of the Missouri Wesleyan faculty, who is making the trip with the club, made a short address and a general reception for the visitors followed the program.

Mr. and Mrs. F. B. Monroe and Mrs. Mary Wray of Hopkins spent the day yesterday visiting in Maryville.

James Edward Gray Post No. 100 American Legion

Regular meeting Thursday, May 6, at 8 o'clock p. m. Missouri medals for ex-service men will be issued to members of this post.

JOHN G. MUTZ, Adjutant.

WANTED.

Good baled timothy or clover mixed hay, wheat or oat straw.

WILLIAM EVERHART.

GERMANY WANTS 2 YEARS GRACE ON SHIP DELIVERY

Peace Delegation Instructed to Deliver Note to Allies—Revision of Tonnage Involved.

Berlin, May 6.—German peace delegation in Paris was instructed to hand the Allies a note requesting two years of grace for Germany in delivery of ships under the peace treaty. A revision of the total amount of tonnage involved at the end of this period is requested.

DEPT. OF LABOR CANCELS 150 DEPORTATION WARRANTS

Decision Releases Persons Arrested in the December Raids—Reason of Insufficient Grounds.

Washington, May 6. — The department of labor today is cancelling more than 150 deportation warrants for members of the communist labor party following the decision of Secretary Wilson that membership of the organization was insufficient grounds for deportation. The department of justice officials were aroused over the decision which releases the persons arrested in the December raids. Garvin declared the Communist Labor party now will become the "haven" where the extremists can continue the agitation without abandoning the theories or purposes.

H. S. RELAY TRACK TEAM TO ENTER STATE MEET

Contestants Will Also Enter Tri-state Track Meet at Tarkio College This Week.

The relay track team of the High School will go to Columbia tomorrow morning to participate in the state inter-high school field meet being held there tomorrow under the direction of the University of Missouri. The members making the trip have not yet been decided upon. This team won the trophy cup at the Northwest Missouri Inter-High Association track meet held at the State Teachers College on May 1, and also won first in the sub-district high school meet at Trenton.

The Maryville high school will also be entered in the tri-state track and field meet at Tarkio Friday and Saturday, held under the auspices of Tarkio College. More than 200 members of the various Missouri, Iowa and Nebraska high schools have been entered in this meet.

Twenty of the Maryville H. S. athletes will be entered for the contests.

The tennis tournament has been entered by six high schools, including Hopkins, which won the doubles event at Maryville last Friday. Others entered are: Clarinda, Iowa; Stanberry, Tarkio, Maryville and Rock Port. This event will start at 10:30 o'clock tomorrow morning.

The preliminaries in the track and field meet will be held Friday morning at 10:30 o'clock, with preliminary heats in the 50, 100 and 220-yard dashes, and trials in the shot put and discus. The finals in these events as well as the others on the program will be held at 2 o'clock Friday afternoon.

Preliminaries in the declamation contests will be held at 10:30 o'clock Friday morning, and the finals at 8:15 o'clock Friday night.

The entries, with the number entered by each school in the tri-state meet, follow: Tarkio, 6; Trear, Iowa, 11; Pawnee City, Nebr., 15; Falls City, Nebr., 6; Beatrice, Nebr., 6; Sheridan, Iowa, 11; College Springs, Iowa, 11; Westboro, 5; Fairfax Consolidated, 6; Hamilton, 2; Stanberry, 7; Craig, 8; Bedford, 7; Rock Port, 11; Sidney, Iowa, 12; Elliott, Iowa, 8; Clarinda, Iowa, 11; Fairfax, 6; ;Mound City, 1; Essex, Iowa 2; Hamburg Iowa 2; Oregon, 2; Leon, Iowa, 1; Shannon City, Iowa, 2; Massena, Iowa, 1; Blanchard, Iowa 10; Maryville, 20; Barnard, 5.

"UNCLE JIMMY" SAUNDERS 96 YEARS OLD TODAY.

J. H. ("Uncle Jimmy") Saunders, is celebrating his ninety-sixth birthday anniversary today, and according to the custom, is enjoying a dinner served at his home by his daughter, Mrs. G. L. Wilfley. While Mr. Saunders has enjoyed unusually good health at all times, for the last few months he has not been so well and it not able to have any of his friends in for the occasion, nor has he been able to come to town or to get out of the house.

Mr. Saunders was one of the pioneer merchants of Maryville, coming here in the earliest days when the town was a small village and opening a general merchandise store.

COLLEGE STUDENTS HAVE FINE DISPLAY

SAMPLES SHOWN IN WINDOW OF D. E. HOTCHKINS STORE.

SPRING QUARTER WORK

Exhibit Is Work of Home Economics and Fine Arts Department Students of S. T. C.

A display which is attracting a great deal of interest and admiration is an exhibit of work done by the students of the home economics and fine art departments of the State Teachers College placed in the south window of the Main street entrance of the D. E. Hotchkins store.

The most of the articles displayed, are those made by the students during the spring quarter. The exhibit was shown at the college during the recent inter-high district association field meet and it received a great deal of praise from all the visitors.

The exhibit and the work of the students is done under the instruction of Miss Anthony, professor of home economics, and Miss DeLuce, professor of fine arts at the College.

Attached to each article shown by the home economics students is a memorandum of the actual cost of the material and the time spent in making it, the two items comprising the total cost of the garment. In estimating his cost, no overhead expense, which a business house must consider is included.

The articles shown include evening dresses, beaded and embroidered in the most elaborate designs, georgette crepe waists, gingham and house dresses, afternoon frocks, all fashioned in the most attractive and newest styles and showing perfection in the fit and finish. There are also articles of lingerie, exquisitely made, hats, both tailored and dress models, aprons and plainer garments.

The display of the work of the students in the fine arts department includes those of commercial art as well, which includes poster and display advertising, and book binding. This exhibit includes some beautifully made and decorated baskets, samples of book binding, hand painted luncheon sets made on the white oiled cloth decorated paste board scrap baskets, folios of various kinds and many other articles. The luncheon sets show different patterns of decorating and coloring and are unusually attractive and practical.

The reed and basketry pieces are unusually artistic and skillfully made. Interior decoration is one of the lines of instruction in this department which is attractively shown in the mural and wood specimens exhibited.

HOPKINS GRADUATES TO GIVE NEW COMMENCEMENT PROGRAM

Start Innovation by Giving Entertainment Instead of Having Imported Speaker—Held May 28.

This year instead of importing an orator to make the class address, the graduates of the Hopkins High School will put on their own program, the members giving orations, readings and musical numbers, and it is thought it will be of much more interest and attract a larger crowd than have the class orators the past several years.

Superintendent Somerville has some very practical ideas and has succeeded in working up an interest in the school seldom found in similar institutions, and having the class put on its own program will create as much interest as anything that has yet been done under his management.

The baccaulaureate sermon will delivered Sunday night, May 23, at the Christian church by Dr. Gilbert S. Cox, the silver tongued orator of Maryville, and the graduating exercises will be held the following Friday night at the Methodist church.

There are fourteen members of the graduating class, Francis Beinert, Helen Dittmar, Leone Flowers, Phoebe Lowry, Ruth Corwin, Ellen Sheley, Ida McCleave, Hazel Sheley, Hope Wray, Irene Campbell, Ruth Burnet, Jim Ulmer, Galen Turner and Rex Hopple.—Hopkins Journal.

To Teach at White Cloud.

Miss Iva Gillispie of Johnson county, Mo., has been employed to teach the White Cloud school at a salary of $100 a month.

TOTAL WAR COST IN LIVES OVER 35 MILLIONS

Copenhagen Society Announces Figures After Exhaustive Study of Consequences of War.

London, May 6.—The total cost of the world war in lives has reached the appalling figure of thirty-five million, three hundred and eighty thousand, according to the final estimates by the Copenhagen society for the study of consequence of the war which made public today the figures reached after an exhaustive study. The decrease of birth rates in the countries is involved as well as increase of deaths from causes directly attributed to the war.

GARDNER URGES A CELEBRATION

GOVERNOR SAYS WE SHOULD CELEBRATE 100th ANNIVERSARY

ADMITTED IN AUG. 1821

Suggestions Regarding the Celebration Can be Secured From State Historical Society.

Jefferson City, May 6. — Governor today sent out one thousand letters to as many different members of the Missouri centennial compittee, calling attention to the fact that this is the preliminary centennial year for Missouri and that preparations should be under way for duly observing the one-hundredth anniversary of the admission of Missouri into the Union, August 10, 1821. The letter follows:

"The year 1920 is Missouri's preliminary centennial year. One hundred years ago, March 6, 1820, the Missouri enabling act was signed by President James Monroe. A year later, August 10, 1821, Missouri was formerly admitted into the Union.

"In view of these historic facts, permit me to suggest to you, as a member of the Missouri centennial committee of one thousand of the state historical society, the advisability of your county taking under serious consideration this year plans for commemorating Missouri's preliminary centennial of statehood. By co-operating with and enlisting the support of the civic, commercial and patriotic organizations in each community, your county should easily be enabled to hold a local celebration. Public meetings, addresses, school exercises, homecomings and pageants lend themselves to appropriate observance of the occasion. Each Missouri county could and should do proper honor to our state's one-hundredth birthday.

"The organization of a county historical society would be a most fitting permanent memorial if you do not already have one. Such an institution would be the nucleus of a new patriotism born of that revered heroism of our pioneers, the state founders and the state makers of Missouri. If housed in fitting quarters, it could also be the home and memorial to Missouri's veterans of the late war. The marking of historic places in your county could be another way of appropriately honoring your annals.

"For data on our general state history, suggestions regarding your celebration, you will find the secretary of the state historical society at Columbia, Floyd C. Shoemaker, at your service. There is reason to hope that preliminary centennial preparations will be under way in each Missouri county this summer."

PICKERING ROAD COMMISSIONERS APPOINTED BY COURT

Edward Shreve, L. H. Gray and Ed Wiley were appointed by the county court as commissioners of the Pickering Special Road District by the county court yesterday.

FOOD'S LONG TRAIL BIG ITEM IN H.C.L.

COSTLY TRAVEL FROM RAILWAY CAR TO THE RETAILER.

CARTING IS EXPENSIVE

Wandering of Peach Shipment Illustrates Unnecessary Expense Which Adds to Price.

A line from a popular song—"There's a long, long trail a-winding"—applies to at least one of the many and devious paths which old man H. C. L. treads in his effort to make living complex and expensive for the average person.

The particular byway referred to is that which wholesale shipments of food follow in their costly travel from the railway car to the retailer. A carload of fruit or vegetables can be sped half way across the continent in a day or two, but on arriving in the city where the food is to be retailed, the shipment starts on a winding trail which too often adds little but unnecessary costs and delay.

This expensive shunting and hauling of foodstuffs from point to point in the cities and the spoilage which the unnecessary handling causes are the big items centralized wholesale terminals eliminate. The Bureau of Markets, United States Department of Agriculture, has been on this trail, literally, following shipments step by step to determine how much expense is added to the cost of food by unnecessary handling between the shipper and the retailer. The route followed by a carload of peaches entering a middle western city over a railroad not provided with team tracks well illustrates this phase of the distribution problem.

This car had to be switched from the railroad on which it entered the city, through the crowded switch yard, to another track which is accessible to teams. Here it stood until the receiving wholesalers' teamsters could finish another job. After this delay two wagons were drawn up beside the car, in turn, and were loaded with the peaches. Thereupon they started for the wholesale house which was two miles away.

The teamsters' route lay through the most congested part of the city, the wholesale district being close to the busy retail section. The wagons were a full hour and a quarter making the trip. Meanwhile, the sun beat down on the peaches and the city's dust and dirt filtered in through the crates so that the fruit was far from being as fresh and attractive as when taken from the car. Moreover, the journey so jostled and bruised the fruit that some of it had to be sold at a discount.

Though the wholesalers were particularly anxious to get the peaches delivered to their sales room on the day of arrival, because of the favorable market, only about one-third of the shipment came in by closing time, and it was noon the next day before the remainder was delivered.

The long, winding trail did not end at the wholesaler's. Once unloaded, the peaches were put on display for the benefit of various jobbers, some of whom purchased a few dozen crates and some larger amounts. Some of these men were situated within two or three squares of the wholesaler and their purchases were delivered on hand trucks. In the case of other jobbers another wagon transfer was necessary.

Next in this process which economists call distribution, came the retailers to look over the lots, in the end buying small quantities such as they could sell in a day or two. This, of course, necessitated another handling and carting over the city's rough pavements.

Last, but not least, came the consumers, each buying only a small fraction of a crate and paying a big share of the expense all the handling had entailed.

This instance is no exaggeration. A very large part of the foodstuffs brought to American cities goes over some such devious trail. One Washington, D. C., wholesale merchant has stated that he spends $20,000 a year for cartage which could be saved if the city had a wholesale terminal where cars could be unloaded directly into premises occupied by the wholesalers. Following an investigation in New Rork City it was estimated by a local organization that the saving in handling costs which would result if adequate terminal facilities were established would be $2,000,000 annually by the Borough of Richmond; $8,000,000 by Queens; $16,000,000 by the Bronx; $21,000,000 by Brooklyn; and an even vaster sum by Manhattan.

Marketing experts admit that there are many baffling aspects to the high cost of living problem, but contend that the remedy for the phase of our costly distribution system just described is plain. Cities which will provide modern wholesale terminals, where shipments can be delivered from the railroad cars direct to wholesalers a few feet away, will make possible the saving of immense sums of monew now charged up to the consumer.

REVOLT IN TORREON—REBELS IN CONTROL

Mexico City Cut Off From Railroad Transportation—Federal Troops Preparing For Defense.

Washington, May 6.—Torreon, one of the most important cities in Mexico, and the strategic point, revolted and is in the hands of the rebels, according to advices. General Castrox is federal commander under arrest and General Murguis was placed in command. Federal troops in the Mexico City district are preparing for the defense of the capitol. Reports indicate that Carranza has completed plans to flee to Vera Cruz if Mexico City is too seriously menaced. Mexico City has been cut off from railroad transportation by junction effected southeast of the city by the rebel forces and no trains are permitted to leave the capitol, revolutionary advices declared.

MINE LEADERS ARRAIGNED ON CONSPIRACY CHARGE

Called Before Judge Anderson, John Lewis, President and Wm. Green, Secretary of Mine Union Included.

Indianapolis, May 6.—Leaders of the United Mine Workers of America and a number of Indiana bituminous coal operators were arraigned before Judge Anderson of the United States district court here today charged with conspiracy to restrict the production and distribution of coal and to fix prices in violation of the Lever Act. Among the number included was John Lewis, president, and William Green, secretary of the mine workers' union.

JOHN HAROFF BURIED AT OAK HILL THIS AFTERNOON

Died at Angora, Nebr., Body Arrived Last Night—Was Formerly Resident of Guilford.

The body of John H. Haroff, who died April 30, at his home at Angora, Nebr., was buried this afternoon in Oak Hill cemetery beside that of his wife, who died a number of years ago. Short services were conducted by Dr. Gilbert S. Cox, pastor of the First Methodist church. The body was accompanied here by a daughter-in-law, Mrs. Mary J. Haroff, and small son, Henry, with whom he made his home.

The Haroff family lived at Guilford a number of years ago. Mr. Haroff is survived by two sons and two daughters, G. W. Haroff of Bloomington, Nebr., M. E. Haroff of Richmond, Hill, N. Y., Mrs. Otto Krause of Colon, Mich., and Mrs. Milton Richards of Grover, Mo.

He is also survived by three sisters, Mrs. E. R. Carr of Fruitdale, Ala., Mrs. J. J. Garrett of Rochester, N. Y. and Mrs. Arthur Rowland of Cedar Rapids, Ia. Mr. Haroff was 85 years old.

Arrest Socialist Leader.

Paris, May 6.—Government agents today arrested M. Loriot, socialist leader who was characterized by Lenine as the "western representative of the Republic of Soviets," charged with revolutionary plotting against France.

MINORITY REPORT TO CONVENTION

W. C. PIERCE OF MARYVILLE WAS TO HAVE PRESENTED IT.

SEATED BOSS DELEGATES

And Also the Philley-Morris Delegation—Committee Was in Session 21 Hours.

Kansas ity, May 6.—The credentials committee of the Republican state convention after being in session twenty-one hours reported today at noon and by vote of 10½ to 5½ seated the boss delegation from Jackson County, and also seated the Philley-Morris delegation from Buchanan County. The Jackson county fight was taken to the convention when a minority report was prepared and was to have been presented by W. C. Pierce of Maryville, who yielded to Raymond Barnett of Kansas City, an anti-boss leader.

After the reports of the credentials committee are voted on, then there will be the report of the resolutions committee and the selection of the big eight to the Chicago convention.

It was predicted that the convention will not adjourn until late this evening as much time will be spent in considering the report of the credentials committee.

MRS. CORWIN ON RESOLUTIONS COMMITTEE AT CONVENTION.

Mrs. C. C. Corwin of this city and D. E. Williams of Atchison were the members of the resolutions committee from this district at the Republican state convention in Kansas City Wednesday. W. C. Pierce of this city was a member of the credentials committee, this committee having to thresh out the contests in Kansas City and St. Joseph.

Mr. Pierce sat as a member of the state committee on the proxy of W. M. Rankin of Tarkio. This committee seated the Albus Boyer delegation from St. Joseph over the protest of Mr. Pierce.

In a ringing speech, Pierce tried to shame the committee. He told them they were a "bunch of rubber stamps." Albus and a few others sought to drown him out with demands for "regularity." They contended vehemently that the Buchanan County case is exactly like the Jackson County case, and that, in the Jackson County case, the "regular" delegation (Tom Marks, boss) had been seated in the temporary organization.

"How can you make fish of one and flesh of the other?" Albus wanted to know. "If there's any merit in what Mr. Pierce says, let the credentials committee thresh it out tomorrow."

So the Buchanan County contest was disposed of in that way, for the time being, at least.

"The state committee just wanted to pass the buck to the credentials committee," said Pierce, later. "But it's all right. We'll be ready for them tomorrow."

E. M. CLAYPOOL SPENDING DAY IN MARYVILLE.

E. M. Claypool, formerly secretary of the Maryville Chamber of Commerce, arrived in Maryville this morning from Chicago, to spend the day on business. Mr. Claypool is now in the employ of the Standard Advertising Company of Chicago as assistant manager. His wife and baby at present are visiting her parents, Mr. and Mrs. E. M. Crane, at St. Joseph, but will go to Chicago shortly to make their home. Mr. Claypool took this position a few weeks ago.

OBITUARY.

(MARY NELSON)

Little Mary, youngest child of Mr. and Mrs. John Nelson of near Pickering, was born February 5, 1920 and died at the home of her parents May 3 of whooping cough. Funeral services were held at the Methodist church in Pickering, conducted by Rev. W. A. Chapman. Burial was in the White Oak cemetery.

100 Per Cent Republican.

Miss Elizabeth Leet of Maryville was honored at the recent congressional convention held at Savannah by being elected an alternate to the National Republican convention to be held in Chicago. She is a daughter of Mr. and Mrs. Horace Leet and is credited with being a very bright girl, and if she is anything like her fater, her Republicanism is of the one hundred per cent brand. We welcome Miss Leet into the political arena and congratulate the delegates of the Savannah convention on making such a wise and satisfactory selection. The honor is worthily bestowed.—Hopkins Journal.

Kangaroo hides are valuable and the tendons extremely fine; indeed, they are the best material known to surgeons for sewing up wounds, and especially for holding broken bones together, being much finer and touher than catgut.

J. C. Gowdy and D. A. Rankin of Tarkio are Maryville business visitors today.

Social, Clubs Churches

Lodge Meeting.

The Woodmen Circle will meet in regular session at 8 o'clock tomorrow night at the W. O. W. hall.

Domino Party.

Yellow spring flowers predominated in the decorations used by Mrs. Rodney F. Hamblin at the domino party with which she entertained yesterday afternoon at her home on East Lawn Avenue. Fifty guests enjoyed the party and high score was won by Mrs. G. B. Holmes Sr., and the consolation prize by Mrs. Jessie Miller. Mrs. Hamblin was assisted in serving by Miss Josephine Wilderman, Miss Greta Kemp and Miss May Mahoney.

Home Guard Society

The Home Guard society of the First Methodist church met yesterday afternoon after school hours in the League room of the church. Following the devotional exercises, papers were read by Virginia Nicholas, Florence Wray and Maude Epperson. Mrs. R. S. Braniger gave a short talk concerning the work of the society. Refreshments were served by Mrs. Braniger and Mrs. Anna Stauble. Fourteen members and five visitors attended the meeting.

Skidmore Club Meeting.

Mrs. Mark Loucks was chosen president of the Neighborly Club at Skidmore at a meeting held yesterday afternoon at her home. Miss Mattie Tarpley was chosen vice-president; Mrs. Gordon Bennett, secretary and Mrs. H. W. Montgomery, treasurer. Yesterday's meeting was the last session for the club year, but arrangements were made to hold semi-monthly meetings during the summer months and the study of nature will be taken up. Eight members attended and one visitor, Mrs. Mary Powers of Brookfield, Mo., who is a guest at the home of Mr. and Mrs. G. L. Owen. Mrs. Loucks was assisted in serving refreshments by Mrs. George Kemp.

Needle Work Club.

Mrs. Louise Ricketts of Arizona, who is visiting her sister, Miss Blanche Hinton, Mrs. McKibban, mother of Mrs. Roy Wolfers of Pickering and Miss Mary Crowson were the visitors present at the meeting of the Pickering Needle Work club which was held yesterday afternoon at the home of Miss Hinton. The afternoon was devoted to fancy work and a social time. The members present were: Mrs. Roy Wolfers, Mrs. Rolland Wray, Mrs. Claude Nolan, Mrs. Joseph Carmichael, Mrs. Ed Herbert, Mrs. J. W. Wiley, Mrs. E. L. Crowson, Mrs. William Hinton, Miss Mary Wolfers and Miss Minnie Everhart.

Elected New Officers.

The W. C. T. U. held their regular monthly meeting yesterday afternoon at the home of Mrs. F. A. Yeo, 215 West Thompson street. During the business session, the officers for the coming year were elected. Mrs. F. A. Yeo was chosen president; Mrs. E. B. Thompson, vice-president; Mrs. Louisa L. Catterson, secretary; Mrs. C. A. McCoppin, treasurer. Mrs. Sarah Wolcott was chosen superintendent of press work. Following the election of officers, lines of work for the coming year were discussed. The first Wednesday in each month was appointed the meeting day.

Circle No. 4.

Circle No. 4 of the Women's Auxiliary of the First Baptist church held a very enthusiastic meeting Tuesday night at the home of Mrs. I. E. Foreman on South Market street. During the business session, plans were made to hold a missionary tea in the near future and it was decided to support a student at Burmah, India. The Circle will furnish the refreshments at the next all-day meeting of the Auxiliary and other miscellaneous plans were made. The program was led by Mrs. W. A. Bailey. Devotions were conducted by Mrs. Gay Leeper. A paper on "Practical Democracy" was read by Mrs. J. D. England and one on "Important Definitions of Democracy" was read by Mrs. J. J. Turner. Mrs. W. C. Ferguson followed with a paper on "Americanization, a Process" and "National Unity," was discussed by Mrs. Eugene Ogden. The concluding number of the program was "Our Right to Our Ideal," by Mrs. W. A. Bailey. Mrs. Bailey resigned her position as missionary leader and Mrs. Robert Jones and Mrs. J. J. Turner were appointed to take her place. Twelve members attended the meeting.

GRADE ATHLETES TO MEET TO ARRANGE TRACK MEET.

The boys of the grade schools will meet tonight to decide on the time and make out the schedule of events for the grade track meet which will be held either Monday or Tuesday of next week at the State Teachers College. The boys have been making some good records at their practice events and are highly enthusiastic over the coming contests.

The final game of the grade base ball tournament will be played Friday afternoon.

The snow leopard, the greatest prize of big game hunters in India, is rarely found below a height of 11,000 feet and is even there extremely rare. It is both wild and savage, and the natives have a superstitious fear of its white coat and deep-green eyes.

Miss Mildred Bainum of Pickering is in Maryville shopping today.

Barnard Takes a Rap at Maryville.

The Barnard contestants in the preliminary H. S. contest at Maryville last Friday night, received "honorable" mention. We thought we deserved some firsts, as well as did many others, but the judges decreed otherwise.

Barnard will copy the example of the twenty-two other schools of the Association who made no entries this year, from now on, until the preliminaries are either held outside of Maryville or in secret with only judges. Both these plans are used in other associations, we understand.

There are only six high schools entered this year in the contests, and twenty-eight schools belong (or used to) to the association. Perhaps Barnard isn't the only H. S. that feels it is useless to flutter into the face of a one sided shebang.

We understand the judges were instructed to judge the contestants upon the effect they had on the audience. Compare the effect on the audience when a Maryville boy or girl appears before a Maryville audience. This is no fault of the judges, but we believe these contests should be passed around to the other towns in the Association. Barnard makes her bid right here. Out of justice to our talented and loyal boys and girls, we feel this explanation is due.—Barnard Bulletin.

A marriage license was issued today to Louie John Schulte of Maryville and Lena Sturm of Ravenwood.

NO REST—NO PEACE.

There's no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. Maryville people recommend Doan's Kidney Pills. Ask your neighbor. Be guided by their experience.

Mrs. J. B. Kissinger, 904 East 4th St., Maryville says: "I had been suffering with kidney trouble for some time. I had severe pains through my hips and was tired and weak. There were bearing down pains in my back and sides and I felt exhausted at times and I could not rest well at night. After using a few boxes of Doan's Kidney Pills I was greatly relieved from the pain and my health began to pick up, thanks to Doan's." (Statement given October 2, 1912.)

On March 31, 1920, Mrs. Kissinger said: "Since I used Doan's Kidney Pills eight years ago I have not had a return of kidney trouble. I am glad to say Doan's permanently cured me and I wish to confirm my former statement as to the benefits obtained."

60c at all dealers. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

Spend Day in St. Joseph.

Mrs. E. T. Rasmussen of Riverton, Nebr., who is visiting her parents, Mr. and Mrs. H. T. Crane, left this morning for St. Joseph to spend the day with Mr. Rasmussen, who is there on a short business trip.

Mrs. George Brown of Burlington Junction spent the day in Maryville shopping.

Hot Spot and Ram's-horn

HAVE LIFTED

CHALMERS

to the Peak of Efficiency

Quality First

IN these days when "gas" is going up in price and down in grade through a shortage in supply the world over, consider these revolutionary devices: Hot Spot and Ram's-horn. They have lifted Chalmers to the very peak of efficiency.

They get amazing power out of low grade "gas."

When the raw "gas" strikes Hot Spot this device transforms it into a "cloud," very much like a drop of water striking a hot stove.

This "cloudy" condition makes just the right fuel for the engine.

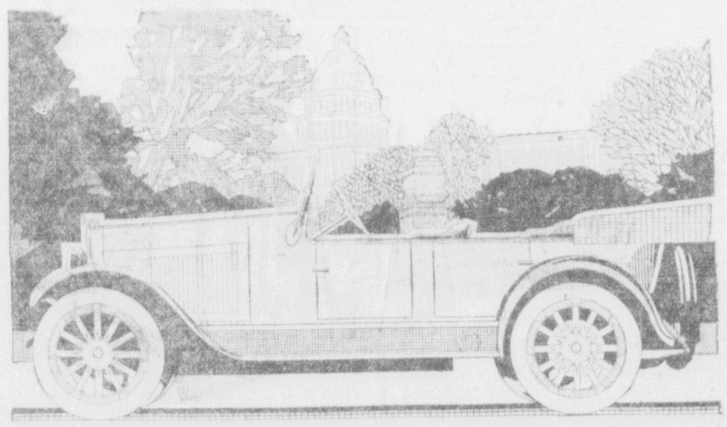
Now the task is to get it quickly to the engine chambers for ignition before it can condense or "grow rainy."

This is where Ram's-horn performs heroic service. It has no sharp corners for "gas" to lodge against, is surprisingly short in length, and the velocity with which "gas" travels through this "tunnel" is estimated at one hundred miles per hour.

The results are two-fold. You get power with rare smoothness. You seldom experience such difficulties as fouled spark plugs, burned bearings, scored cylinders and the like, because "raw gas" cannot trickle down past the pistons and thus "cut" the lubricating oil in the crankcase.

These efficiency results have added to the impression that Chalmers is one of the few great cars of the world.

W. W. Jones & Co.



Keep Smiling

Says one to another. Surely the price's in Joe's Store are far lower than anywhere else. Come in and find out for yourself.

You are bound to buy—Our prices on Merchandise cannot be beat.

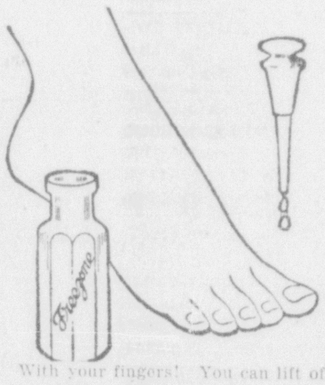
Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.



With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone costs little at any drug store? apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Card of Thanks.

We desire to express our sincere thanks to our friends and neighbors for their kindness in our bereavement, and for the floral offerings.

GREAT BRITAN IS LEADING U.S. IN SHIP CONSTRUCTION

Figures Compiled by Lloyds Show That England Has 865 Vessels Compared With 535 Here.

London, May 6.—Great Britain today has on her shipways nearly half of the tonnage under construction throughout the whole world. The United States is second, and is steadily falling behind England.

Here are the world's comparative shipbuilding figures, as compiled by Lloyd's up to April 1:

Great Britain, 2,294,000 tons; United States, 2,573,000 tons; rest of the world 1,974,000 tons.

To show how shipbuilding in England has "come back" this table is sufficient.

Britain's output in 1919, 1,620,442 tons; under construction today 3,294,000 tons.

United States' output in 1919, 4,075,385 tons; under construction in United States 2,573,000 tons.

Thus the United States today is about 900,000 tons behind Great Britain. The United States yards are building 535 vessels, as compared to England's 865, of which 2 7 are between 5,000 and 10,000 tons each, and 62 are between 10,000 and 25,00 tons.

Italy has increased tonnage under construction by 41,000 tons, amounting in all to 355,000 tons. Holland shows an increase of 38,000 tons at 366,000. France has an increase of 23,000 tons at 240,000. Papan is building 285,000 tons of shippinp and Canada 157,000 tons.

On April 1, 1919, the world's shipbuilding stood thus:

England, 2,222,449; other countries, 5,389,915.

Thus England has reduced her shipbuilding deficiency(compared to the rest of the world, by more than three to one.

Compared with figures of six years ago, the total ship construction work in the British Isles has been increased by 1,563,000, while tonnage building abroad has advanced 3,695,000 tons.

The most interesting aspect of ship construction is the advent of the internation-combustion engine, in which Scondinavian countries lead. The United States Shipping Board has converted a number of coal-burning steamers into motor-propelled craft. Italy also is adopting this system to overcome coal difficulties. All together there are 151 motor ships under construction.

Some Scandinavian concerns say they have cut their operating expenses by 50 per cent by installation of the Diesl engine. Experts figure that such ships eventually will dominate the seas.

SUFFRAGE LEADERS ANTICIPATE DELAWARE'S RATIFICATION.

Washington, May 6.—Suffrage leaders declared today they are on the eve of final victory. The lower chamber of the Delaware legislature is expected to vote ratification of the suffrage amendment late today and wires the senate voted for ratification yesterday. The leaders declared they are certain of victory. The ratification by Delaware completes the ratification by states.

Emmett Bishop of Ravenwood was a Maryville business visitor today.

MACY WORTH TELLS OF STORM AT WHEATLAND.

Mrs. S. S. Wolcott received an interesting letter this morning from her son, Macey Worth, living at Wheatland, Wyo., telling of the damage done through that section by the Easter blizzard, which visited the entire middle west. This letter was the first Mrs. Wolcott had received from her son since the storm on account of the mail service being completely blocked through the ranch sections. Mr. Worth writes that there was over five feet of snow fell during the storm and during the worst of it, thirty-eight inches of snow fell in thirty hours. Mr. Worth lost none of his stock, but many of the neighboring ranchers did, one losing over 200 head. There is still heavy snow on the ground through that section of the state.

James Allen and his mother, Mrs. John Allen of Conception were in Maryville on business today.

Frank Martin of Casper, Wyo., arrived in Maryville today at noon for a few days business trip.

LABOR LEADER IMPLICATES ATTY. GENERAL IN CONSPIRACY.

Washington, May 6.—Charges that Attorney General is involved in a conspiracy to discredit union labor was made before the railroad board today by Timothy Healy, president of the International Brotherhood of Stationary Firemen and Oilers.

"Certain high government officials are being used to discredit union labor," Healy said. "They are being used by corporations as part of the conspiracy against union labor. This bunk about May day outbreak is a part of the conspiracy."

WHY DEMOCRACY APPEALS TO THE WOMEN VOTERS

Mrs. John K. Ottley, Associate Democratic National Committee-woman of the National Committee, in a recent appeal to the Democrats of her state said:

"As a lifelong Democrat, I am proud to stand upon the record of the Democratic administration just drawing to a close. Being composed of human beings, I suppose it has not been infallible, but the consideration of its errors we may confidently entrust to the opposition party.

"Democracy has a great story to tell, and it is the sort of a story that appeals to the American people. The reactionary policies of the Republican party are not what the American people want. On the other hand, they do not desire the extreme radicalism which fights vainly first under one third party banner and then another. What they do want is a liberal party with a record of practical, forward-looking achievement, and a promise of future progress in the same direction.

"This is what the Democratic party has to offer, and if we are united in its presentation, the American people will show in 1920, as they did in 1916, that their wishes lie that way. Women especially want the things that the Democratic party stands for. They proved that in 1916 by throwing the election to the Democrats and Woodrow Wilson. We have more than fulfilled their trust, and today 17,500 American women have Presidential suffrage, over and beyond the 9,500,000 who will be added by the ratification of the Federal amendment. These women have a voice in choosing 339 of the electoral college, which is nearly two-thirds of its total. In a very large measure, these women the country over want the continuance in power of the Democratic party."

Examination of more than 50,000 stomachs of birds has established beyond reasonable doubt that birds are of economic value, first in eating harmful insects, their eggs and larvae; second, in eating the seeds of noxious weeds; third, in devouring field mice and other small rodents that injure the crops, and fourth, in acting as scavengers.

The French may not be greedy, but they certainly moved in on the Frankfurters.—The Stars and Stripes, Washington, D. C.

MILADY OF FASHION TO WEAR FEATHERS ON HER FEET.

New York, May 5.—Feathers of various shapes and hues are to sprout from shoetops, according to Mme. Jean Crikboon, a Paris fashion writer, who arrived from Havre on La Touraine. She came for funds to care for Paris shop girls, and told of the latest Paris fad.

Many Mercury-footed girls have appeared on the boulevards there.

BEQUEATHS FORTUNE TO CARE OF HOMELESS ANIMALS

London, May 5.—Dr. Ernest W. Cottle, famous skin specialist, died here recently and his will gives $450,000 to feed homeless domestic animals and protect them from harm at the hands of men.

POINT OF ORIGIN.

Jerry was engaged in his nightly shelling of Varennes. A negro pioneer from the corps ammunition dump, seeking an abri, clambered down into an artillery P. C. and lay down beside the captain, who was catching a few moments' sleep. Aroused, the captain raised himself on one elbow and demanded, "Where the hell did you come from?"

Softly came the dulcet answer, "Suh I'se from Alabama."

He stayed.

—The Stars and Strips, Washington, D. C.

11 Tractors in One Township.

Knckley, Kansas, May 5.—Beaver township, Republican County, holds the State's record for the number of tractors owned in one township. Eleven farmers near here now are using "iron mules" to plow wheat fields.

Nearly a thousand more acres were sown to wheat this year than last. The increased average is believed to be due to the use of the tractors.

Pigeons are nowhere more abundant than in the East Indies.

The wandering albatross is the largest water bird.

You'll be selecting something for a wedding or graduating present soon, and you will find this store extra well stocked with the most appropriate and unusual things.

Instant Bunion Relief

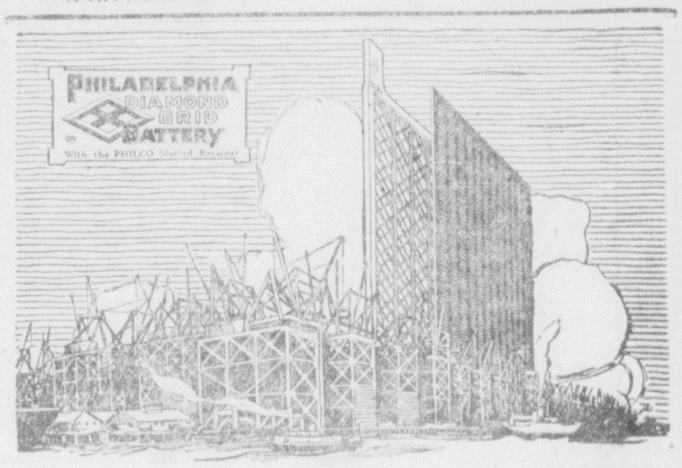
At Last! Instant Relief for that Awful Bunion

Try it at our expense. Why continue to suffer the agony, torture and discomforts of that awful bunion when here is Instant Relief Guaranteed—and you don't have to pay me one cent unless you get absolute satisfaction.

FAIRYFOOT Guaranteed to Give INSTANT RELIEF

Hundreds and thousands of men and women made happy last year. Over 20 years of continued success. Millions who have tried pads, plates, steel contractions and all sorts of cheap remedies without success gladly pay the full price for a real remedy—FAIRYFOOT—the only known Bunion cure. Don't give up—don't think that Bunions are incurable—don't say you've tried everything under the sun—get a box of FAIRYFOOT—give it a trial—and if you do not find instant relief, return what's left and get all your money back. We know FAIRYFOOT has given complete satisfaction to all our customers. We know they will do the same for you. Hence we gladly guarantee FAIRYFOOT. We have a FAIRYFOOT Remedy for every foot trouble.

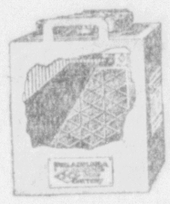
MARYVILLE DRUG CO. N. W. Corner Square.



THE GIANT SHIPYARDS AT HOG ISLAND, PHILADELPHIA, ARE CONVINCING EVIDENCE OF "DIAMOND CONSTRUCTION FOR STRENGTH."

An Automobile Starting Battery Guaranteed for Two Years!

A GUARANTEE is the measure of a manufacturer's faith in his battery—based on past performance. If he guarantees his battery for only ninety days or six months or a year, he is probably sure that it will last that long. But beyond the period of the guarantee he is asking you to take a risk which he is not willing to take himself. It is unbusinesslike for you to take such a risk when you can buy a Philadelphia Diamond Grid Battery that is guaranteed for TWO YEARS.



The Diamond Grid is the framework on which each of the plates is formed. Its Diamond Construction is similar to the Diamond Construction used on the ways and cranes at Hog Island and in most other strong structures. In your battery the Diamond Grid means strong plates and is your insurance against plate trouble.

The Philco Retainer is a sheet of hard rubber closely perforated with long narrow slots. A Retainer is placed flat against the active material on each side of each positive plate. In any battery the positive active material tends to slough off as the battery grows older. The slots in the Philco Retainer are so narrow that the material cannot readily pass through them and the result is greatly prolonged battery life.

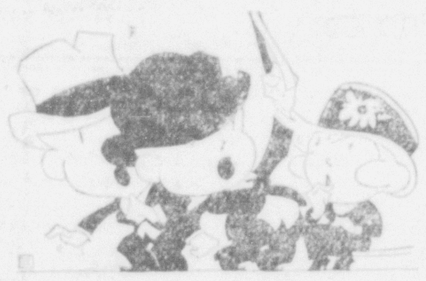
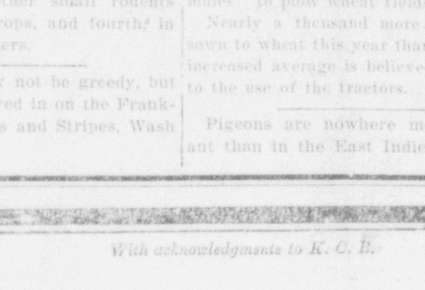
"and he swapped his grouch for a smile"



GOSH BUT that trolley,
WAS ALMOST as packed
AS IF they'd squeezed
ALL THE candidates
FOR PRESIDENT in.
WHENEVER THE car swayed,
I SAT on the lap
OF A pudgy lady.
MY BRAND new derby,
WAS SUNK without a trace,
AND A garlic breath,
BLEW DOWN my neck,
AND MY foot went to sleep,
AND THE rest of me
ENVIED MY foot,
AND I was sore,
YES, GOOD and sore,
AND THEN a chap,
WHO CAUGHT my eye,
CHEERED ME up,
WITH A jolly grin,
AND SAID to me,
"NO GROUCHES Now."
AND HONEST, I felt better,
IT WAS an ad,
OF A cigarette,
BUT I'LL say this,
IF THE ad alone,
CAN CHASE a grouch,
THE CIGARETTES,
THEMSELVES MUST do,
WHAT THE car card said,
"THEY SATISFY,"
I'LL SAY they do.



IT WILL tickle you to find out how good Turkish and Domestic tobaccos taste when blended in the exclusive Chesterfield way. They *do* satisfy. And you'll be pleased to find out also that Chesterfields *keep* firm and fresh in their special, moisture-proof package.

TRANSPORTATION BUREAU FOR CONVENTION VISITORS

Democratic Committee Opens Offices for Convenience of Those Who Will Go to Conventions.

Chicago.—A new departure in political convention management has been launched by the Democratic National Committee, which has opened a transportation bureau here to care for the delegates, alternates and spectators who will go to San Francisco to attend the convention June 28.

The shortage of railroad equipment and the flood of traffic on all roads is responsible for the innovation.

"See America First" tours to points of interest in the West, including Yellowstone Park, the Grand Canyon, Los Angeles and others, are being planned by the Democrats as a lure to attract at least a part of the travelers westward two or three weeks before the convention, thereby spreading the burden on the railroads over a longer period.

For the return trip from San Francisco, a system has been worked out whereby the visitors can buy eastbound tickets within thirty-six hours after the convention opens, the tickets to call for return passage eight hours after the convention closes. The biggest problem in convention transportation has always been the return trip, as the day and hour for the close is always uncertain.

E. K. Bixby, a transportation official of the Pennsylvania Railroad system, has been loaned to the Democratic committee to take charge of the transportation bureau. He has obtained the cooperation of the Association of Western Passenger Agents, and the Pullman Company, has promised him first call for its parlor-car equipment.

The transportation committee of the Democratic National Committee, which is directing the work, includes Charles Boeschenstein, Illinois, chairman; Isidore B. Dockweiler, California; W. W. Marsh, Iowa; Fred B. Lynch, Minnesota, and Patrick H. Quinn, Rhode Island.

The whale, which despite popular supposition, is not a fish but belongs with the mammals, like the cow or horse, can remain under water an hour and a half.

Johnson, Borah, Kenyon and the other insurgents against "Old Guard" bossism are beginning to lodge protests against the reported selection of Senator Lodge for official "keynoter" at the Chicago convention.

The Swedish government has stopped the sale of a shipment of U. S. shoes because they contained horn fiber in the heels and toes. Another effort of profiteers to horn in.—The Stars and Strips, Washington, D. C.

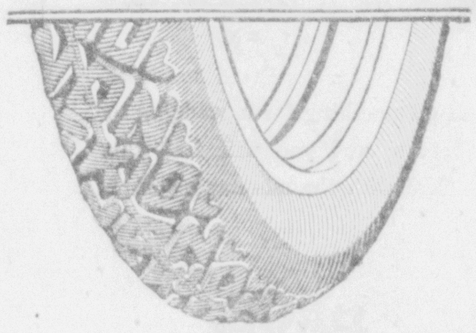
What Most Miles per Dollar Means To 7,000,000 Car Owners

The thing that every tire buyer—for big car or small—is trying to buy, is mileage economy. And the one way to produce it is scientific manufacturing.

That means quantity buying, quantity production and quantity selling — always the Firestone way to better tire values at low cost.

Buy Firestones!



Most miles per dollar is a Firestone pledge, to the big car owner as well as to the owners of light cars. See the new Standard Oversize Firestone Cord.

TESTED RECIPES WHICH WILL SERVE FIFTY PERSONS.

Cooking in large amounts often troubles even the experienced cooks for most women are accustomed to plan for only small numbers. When a hot dish is to be served in school, club, or grange a recipe for a large number is convenient to have. The following recipes for cocoa and cream soup will serve 50.

COCOA.—Cocoa, 1½ cups.
Sugar, 2 cups.
Milk, 8 quarts.
Boiling water, 1 quart.
Water, 1 pint.

Mix cocoa with pint of cold water until smooth; add boiling water and boil 20 to 30 minutes, stirring occasionally. Add sugar to hot milk in double boiler, and pour cocoa mixture into this. Beat with egg beater until froth forms on surface.

CREAM SOUP — POTATO.—Potatoes, 8 pounds, or 24 of medium size.
Onions, 4 medium-sized ones.
Parsley, 4 tablespoons, chopped.
Scalded milk, 10 quarts.
Vegetable fat, 2 cups.
Flour, 1½ cups.
Salt, 6 tablespoons.
Cayenne, 1-8 teaspoon.

Make a white sauce of scalded milk, fat, flour, and salt; add to this the cooked, diced, or mashed potatoes and onion; serve hot.

This recipe may be used for any cream soup by substituting any other vegetables for the potato and onion or by using fish for flavoring.

GRAVIES AND SAUCES GOOD FOR SERVING WITH MUTTON.

A well-made gravy or sauce adds much to the palatability of a meat dish. The following recipes are recommended by the home economics specialists of the United States Department of Agriculture as suitable for use with mutton:

CURRANT JELLY GRAVY.—A gravy flavored and made acid with currant jelly is often served with roast mutton. To each cup of brown gravy made from the fat of roast mutton add a glass or less of currant jelly.

BROWN GRAVY FOR ROAST MUTTON.—In making gravy for roast mutton allow 2 level tablespoons of fat for each cup of gravy desired, pouring off any in excess of this amount. To the fat add 3 tablespoons of flour and cook thoroughly, browning it, but being careful not to burn it. Add boiling water or broth and boil for a short time, stirring constantly. Add salt and pepper. The proportions are 2 tablespoons of fat, 2 tablespoons of flour, and 1 cup of water or stock. If the flour is not browned, only 2 level tablespoons are needed for each cup.

MINT SAUCE.—¼ cup finely chopped mint leaves.
1 tablespoon powdered sugar.
½ cup vinegar.
½ teaspoon salt.

Combine the ingredients and let the mixture stand in a warm place until the flavor of the mint has penetrated the liquid.

Mint sauce, which is so generally relished with roast mutton and roast lamb, may be made from either fresh or dried spearmint.

A Word for "Al" and "Sl."

The alfalfa acreage in Missouri should be increased this year as never before. The successful growers, laughing at dry seasons, stir our people more and more to the importance of having some alfalfa on every live stock farm. August is the ideal planting time.

If all the land that will raise alfalfa in the poorest alfalfa county were planted in alfalfa, that county would have the largest acreage in Missouri. "Uncle Al" and his friend, "Uncle Sl," are the fellows that tend to cause the bank cashiers to grin like 'possums, for they do make the money, the velvety profits in these days of "Al"-falfa and the "Sl"-o!

The Swedes have a legend about the stork. The stork cried "Stryke, Stryke (strengthen ye)" and hence was the "stryce" or stork. After the bird had called to the Savior, it forever after lost its voice, so runs the legend.

A legend about the swallow is that if its nest is on a house it will bring good luck to the dwellers therein. Another legend is that if swallows fly high it is a sign of good weather.

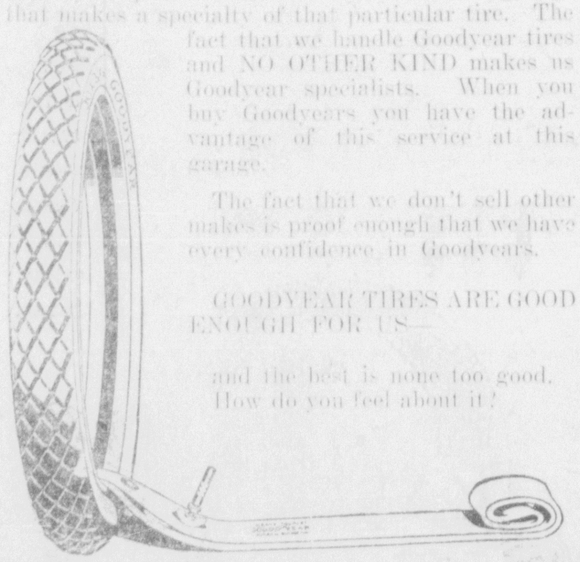
Goodyear Service

You can expect the best tire service at the garage that makes a specialty of that particular tire. The fact that we handle Goodyear tires and NO OTHER KIND makes us Goodyear specialists. When you buy Goodyears you have the advantage of this service at this garage.

The fact that we don't sell other makes is proof enough that we have every confidence in Goodyears.

GOODYEAR TIRES ARE GOOD ENOUGH FOR US—

and the best is none too good. How do you feel about it?



GEO. McMURRY

Buicks and Goodyears. 4th and Market.

WOMEN IN POLITICS 'WILL BRING REFORMS

May Go Through With Movements Now That They Have Long Advocated Through Clubs.

Women's entry into politics is likely to bring about many reforms that affect the public welfare. Through their club work they have been able to carry on important investigations that will lead to united effort within party lines, and the Democratic women can be depended upon to lead, as always, in efforts that spell real progress.

In New York City recently the subject of tenement house work has been brought up for discussion through surveys made by the Women's City Club and the Men's City Club. During the war, while public attention was diverted from many everyday problems, the number of houses in which piecework is done increased greatly, and according to statistics there are now 16,219 of these tenements in the State of New York, 15,169 being in the heart of the great city.

It was discovered that among the home-workers were numerous children under fourteen, who helped in pasting dots on veils, in making artificial flowers and embroidering blouses. In some places, twelve per cent of the workers were children. Snap fastners, now so much in use are almost entirely the labor of children, who receive 15 cents for snapping twelve gross, while carding hooks and eyes commands 4 to 7 cents per gross of the cards when finished. Tag-stringing, another occupation employing boys and girls, brings ten cent a thousand tags.

Conditions Deplorable.

As the families earning these miserable pittances must dwell in the most unhealthful surroundings, much illness was discovered, tuberculosis being prevalent and influenza widespread. While the children work on what their limited capacities permit them to do, the parents are engaged at the making of clothing. Although for years women's organizations have waged persistent warfare against sweatshops, the evil has been so well established that it has not been eradicated.

The two city clubs have outlined provisions to be incorporated in a bill to do away with the use of tenement houses for manufacturing, altering, repairing or finishing "any article whatsoever," and in the future women, who will be deeply concerned in legislation that will make the world a better place to live in, will think also of their responsibility in the purchase of the garments they wear. They will not buy clothing because it is cheap, omitting to inquire whether little children have been sacrificed in its manufacture.

The Democratic party has consistently advocated and supported bills to abolish child labor, and has accomplished much in protecting women in industry. Its record of the past will set a high standard for the future in which it will have the aid of women who can vote as well as work for the eradication of old evils.

ECONOMY WILL ROUT THE H. C. L., NATIONAL C. OF C. SAYS.

The practice of economy is recommended by the National Chamber of Commerce to the country. Only the careful application of economy as a cardinal principle, not only by the people at large, but by local, state and federal officers, will result in production catching up with demand, and in control of the epidemic of extravagance which, the national chamber declares, follows every great human catastrophe.

Recommendations of the national chamber were collected into twenty-six resolutions. Instead of shipping the resolutions to Congress for a waste basket filler, however, the chamber proposes to make them its platform for 1920.

In order that the work of increasing production may be attended to systematically, there were formed eight departments of the national body, each headed by two directors and a manager. The directors were chosen for their qualifications as shown by past work along the line represented by the department, and the manager, when chosen, will be the clearing agency in Washington through which the department will work.

The new system makes it all the more necessary, that the country provide at once for the $2,750,000 building in Washington which is to serve as headquarters. There already has been guaranteed $2,291,441 of the sum.

How Your Money Goes.

Boston, May 5.—The Congregationalists of Greater Boston have published the following statement of how money goes:

Americans (all ages), average for tobacco per week, seventy cents.

Americans (villages), average for theatre and movies per week, forty-three cents.

Americans (all ages), average for ice cream and candy, forty cents.

Congregationalists (adults), for the church, twenty-five cents.

Congregationalists (adults), average for benevolence, four cents.

This Miller Cord Tire has run 22,000 Miles On a Heavy Truck

22,000-Mile Tread

And Why They Are Exceptions

Worn Miller Tires are often exhibited with some sign like above.

Countless letters also reach us telling such mileage tales.

These are very pleasing. But we don't want users in general to expect miracles from Millers.

Service to Expect

Expect from Millers greater service than from any like-type tire. And 19 times in 20 you will get it.

Expect it to outserve any tire you put opposite, and it almost invariably will. Expect twice the mileage tires gave a few years ago, and they will doubtless do still better.

Expect tread wear 25 per cent better than from others and you'll not be disappointed.

But don't expect that Millers, under all conditions, can match some exceptional mileage.

Why Mileage Varies

A Cord Tire gives vastly greater service than a Fabric Tire.

An oversize tire will vastly excel a tire that is undersize. Care, load and roads affect tire service greatly.

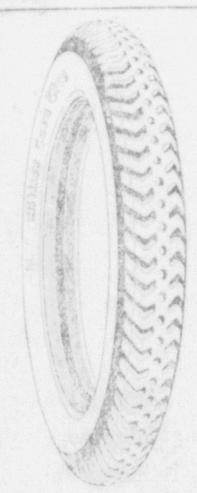
Millers are uniform tires. That is a major reason for their supremacy. But uniform tires will vary with conditions.

Tread Patented

Center Tread smooth with suction cup, for firm hold on wet asphalt. *Geared-to-the-Road* side treads, mesh like cogs in dirt.

With 3-Ton Loads

Miller Cord Tires were tested by Ray C. Carpenter on a 22 passenger bus, averaging a 3-ton load each trip. The first tire on a rear wheel ran 23,700 miles without a blow-out, and was never removed from the wheel. The second was punctured by railroad spike at 5,000 miles, but when repaired ran 12,000 miles more without a blowout. On a front wheel the Miller ran 22,000 miles without a blowout. All were passenger-type tires.



What Our Tests Show

We run tires at our factory ten million miles a year to make these service tests.

These are radical tests. Tires are run constantly, night and day, and under heavy load. We want quick comparisons.

On our testing machines Miller Cords average 15,000 miles, and Fabrics about half that.

But these are not mileage records. We are running Miller Tires against high-grade rivals to prove that Millers last best.

Be Satisfied With This

You will get on a Miller an exceptional tread. It is by 25 per cent the best tread made.

Not one Miller Tire, made under present methods, has ever come back with the tread gone.

You will get uniform tires. Every Miller Tire is signed, both by maker and inspector. Every man knows that a faulty tire means a penalty for him. And faults are extremely rare.

You will get greater mileage than from any tire you put on the opposite wheel. That is so nearly universal that we will stake your favor on any single test.

But you will get the best tire built today. There are hundreds of thousands who know that.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

Wheat Figures.

The uncertainties of political candidacies this year are equalled only by the uncertainties of the growing wheat crop along with the August 1st wheat prices, says the Missouri State Board of Agriculture.

The Missouri total of growing winter wheat is 2,580,000 acres against 4,230,000 acres a year ago. This year's spring wheat sowing is only 12,500 acres against 21,600 acres one year ago. The state outlook for winter wheat yield is only 28,380,000 against 80,000,000 one year ago.

Attention is called to the estimated national production of winter wheat this year, showing an outlook of only 482,617,000 bushels today against 731,626,000 bushels a year ago. The indications are that the carry-over of 150,000,000 bushels from last year's crop is principally rather low grade wheat as to milling quality. This amount is just twice the normal carry over on the average year before the world war.

Taking the nation over, the development of spring wheat planting indicates considerable reduction in that acreage.

The normal wheat requirements of the United States for consumption and export total an average of 800,000,000 each year. The present outlook of production of winter wheat in the 48 states is less than 500,000,000 bushels.

Hoover heard of a President named Herbert.—The Stars and Stripes, Washington, D. C.

BOOKS FOR EVERY-BODY CAMPAIGN

H. L. WHEELER APPOINTED AS STATE DIRECTOR FOR MO.

TO ESTABLISH LIBRARIES

Program Is Carried on Under Direction of P. P. Claxton of the U. S. Bureau of Education.

Harold L. Wheeler, librarian of the Missouri School of Mines, at Rolla, has been appointed Missouri state director for the "Books for Everybody" movement of the American Library Association. He will be assisted by Miss Helen Harris, of Sedalia, until recently engaged in the hospital and merchant marine library service of the A. L. A.

With the active co-operation of librarians, library trustees and friends of libraries, the Missouri state directors will enlist the support of the entire state for the propect of extending public library service into every community in the country and every branch of national activity. Statistics recently announced by the United States Bureau of Education show that more than 60,000,000 people throughout the country do not have access to public libraries. Establishment of new libraries will be promoted and existing public libraries everywhere will be assisted to develop vigorous measures for reaching all classes in their respective communities and to meet their full possibilities as agents for the promotion of sound American citizenship.

Other outstanding features of the American Library Association's Enlarged Program are the promotion of library service for the blind in the new, uniform Braille type and library service to the U. S. Merchant Marine. To carry out the program, which has the full endorsement of Commissioner P. P. Claxton, of the United States Bureau of Education, a "Books for Everybody" fund of $2,000,000 is being obtained without resort to an intensive drive.

Missouri library leaders declare that the State will benefit greatly through the "Books for Everybody" movement.

HOW MUCH MUST AN ACRE YIELD TO BE PROFITABLE?

Is the per acre yield of your farm sufficiently high to make satisfactory returns on the capital and labor expended in producing crops on it?

This is one of the 16 questions that the United States Department of Agriculture urges every farmer to answer for himself in determining whether or not he is managing his farm efficiently. In a number of farm management studies in the South, on small farms averaging 29 acres of crops, the department found under pre-war conditions that an average yield of 355 pounds of cotton an acer is required to make an average farm income barely sufficient to pay a fair rental for the use of the land and give the operator ordinary wages for his labor and management. Not until the group of farms with an average of 121 cropped acres was reached did an average yield of less than 215 pounds of cotton an acre make an average farm income sufficient for rent and the farmer's wages. The influence of yield on cost of production was just as marked with corn and other crops as with cotton.

Full details as to this and the other 15 points involved in efficient farm management are embodied in United States Department of Agriculture Circular 82, "Testing Farms in the South for Efficiency Management," copies of which may be had free on application to the Department of Agriculture, Washington, D. C.

There are more than 1,200 species of our native birds.

The huge bills of toucans are light, as they are filled with air cavities.

Making 9=23

THE number of motor vehicles in use in the United States during 1919 increased 23.2 percent over 1918. For the same period the production of gasoline increased only 9 percent.

To supply gasoline for the greatly increased fleet of motor vehicles is the problem confronting the petroleum industry.

To date, the solution of this problem has been possible by reason of the reserve stocks on hand. This bulk storage has served as an expansion and contraction factor to keep supply equal to demand.

In the 11 states it serves, the Standard Oil Company (Indiana) maintains 3780 bulk storage stations where stocks of gasoline are carried sufficient to meet the normal demand, with a reserve for almost any emergency.

Had it not been possible to keep this tremendous reserve in the field, thousands of motorists would have been unable to operate their cars during the late transportation troubles.

This equipment, representing an investment of millions of dollars, is managed by alert men, trained to serve you. So far it has proved itself equal to any demands made upon it.

The foresight of the men responsible for the operation of the Standard Oil Company (Indiana) has enabled them to estimate accurately the probable needs of the motorist for gasoline, and they have located bulk and service stations at convenient points throughout the territory, where the needs of the buying public can be supplied quickly and easily.

This emphasizes the benefits derived by the public from the efficiency of a company as big as its job.

In the Jam

In the jam and hustle of spring work, when everything seems to come at once, don't forget that the man who works with his head as well as his hands gets more done in the long run, and does it more easily. Head work means regular reading of

The COUNTRY GENTLEMAN

Why, $1.00 invested now in a year's subscription for this Great Farm Weekly may mean $100.00 or more extra in your bank account by fall!

What to plant and how to plant it, and then how to take care of the crop; the feeding and breeding of cattle, pigs and sheep; the garden, the poultry yard, canning by the cold-pack method—all these you will find every week in THE COUNTRY GENTLEMAN. And for good measure there are splendid stories for father, mother and the children. . . It's the biggest buy in the land for a dollar—52 big weekly issues at less than two cents each. Here is my address. Who'll be next on the list?

The Jokes Alone Are Worth More Than $1.00 a Year

Overland

TRADE MARK REG.

The Good Sense of This Sedan

Only 200 Pounds Heavier Than the Touring Car. Rides on *Triplex* Springs with Comfort of Heavy Car

EVEN SUMMER EVENINGS sometimes are cool! Dust sometimes blows—or rain. You drive more—more chances with weather. And summer clothes, especially women's clothes, soil easily. Then *isn't* it good sense to buy a Sedan—Now? Instead of a collapsible top which you never lower, the Overland Four-Door Sedan provides a thick permanent top with greater coolness in hot sun. Plate glass windows give you control of your comfort but never cut off your vision. *Triplex* Springs make touring easy. Light weight provides economy.

Touring, $985; Roadster, $985; Coupe, $1525; Sedan, $1575

West Fourth St.—Maryville.

Swift & Company Does Not Control Its Raw Material

Other industries can buy their raw materials according to need or judgment, and set a selling price. They need manufacture only what they can sell at their price.

Cotton, wool, wheat, lumber, iron, steel, and other non-perishables, can be held either by their producers or their users until needed.

But live stock comes to market every day in fluctuating quantities from scattered sources, wholly uncontrolled and at times without regard to market needs.

An immediate outlet must be found for the perishable products, at whatever price, as only a very small proportion can be stored.

No one can foresee or stipulate what they shall bring; prices must fluctuate from day to day to insure keeping the market clear.

Only the most exacting care of every detail of distribution enables Swift & Company to make the small profit from all sources of a fraction of a cent per pound, necessary for it to continue to obtain capital and maintain operations.
